

KAMPEN MOT POLIO

Oppdatering - Presidentsamling

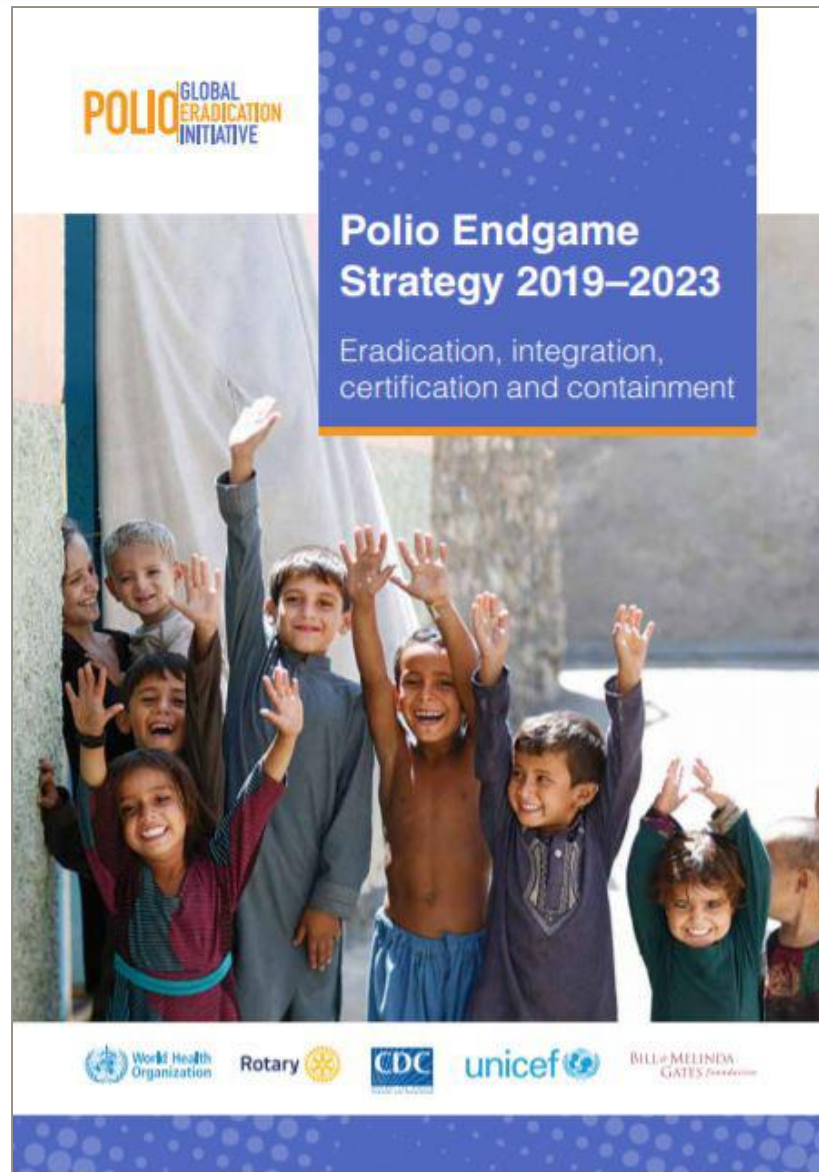

Sigurd Arbo Høeg, PDG, Poliokoordinator D2290

Fevik, 11 januar 2020

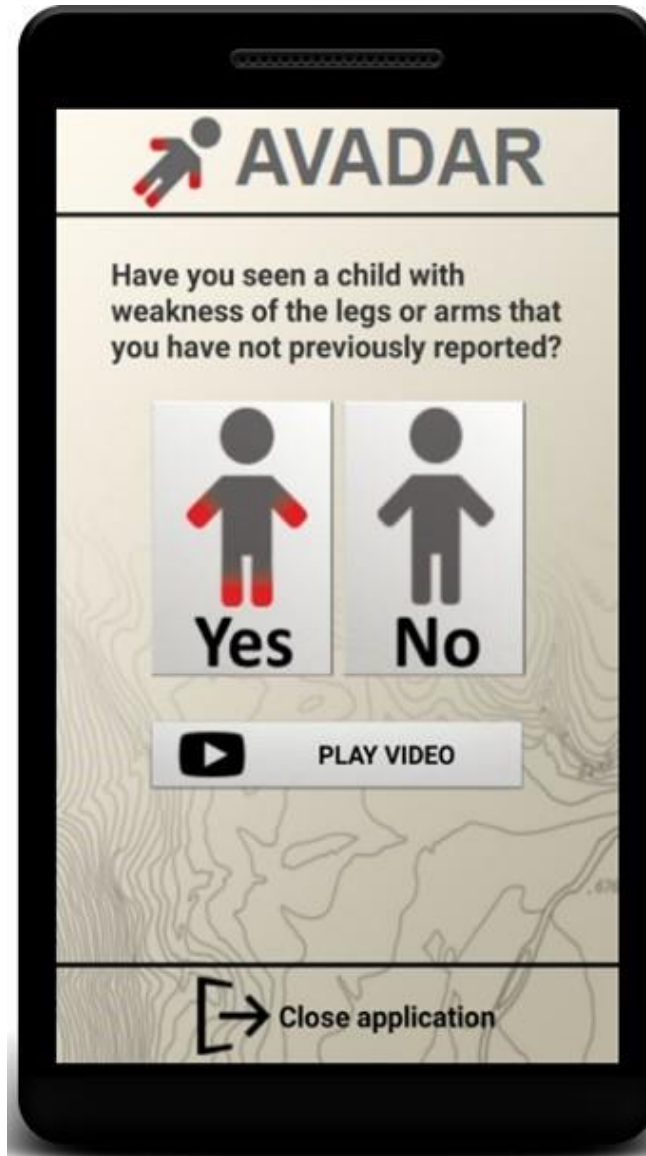

END POLIO NOW

KAMPEN MOT POLIO – STRATEGI FOR Å NÅ MÅLET OM EN POLIO-FRI VERDEN

- Ikke lek i løv og vått gress.
- Ikke sitt på steintrapp.
- Ikke spis blomsten på eplet.

GPEI - POLIO END GAME STRATEGY – TEKNOLOGI

TEKNOLOGI – AVADAR (Auto-Visual AFP Detection and Reporting)

2

SMS Report Transmission

- reports are submitted from the app via SMS
- SMS are routed through local gateway phones
- an acknowledgment SMS is sent back to the informant

3

Database & Dashboard

- report transmissions are recorded in the database
- information is displayed on the online dashboard
- approved users can access and export data

1

Weekly AFP Report Submission

- a large network of community informants and health workers are trained to recognize AFP and use the AVADAR mobile application
- they receive a weekly alert on their mobile phones with a video reminder of what AFP is
- send weekly report submission with AFP case details or a "no" report

Data, Insight, Execution

- data is monitored in near real time
- insights are used to assess the health of the system
- improvements are made to the performance of the project and the team
- data continues to be collected, and the cycle repeated

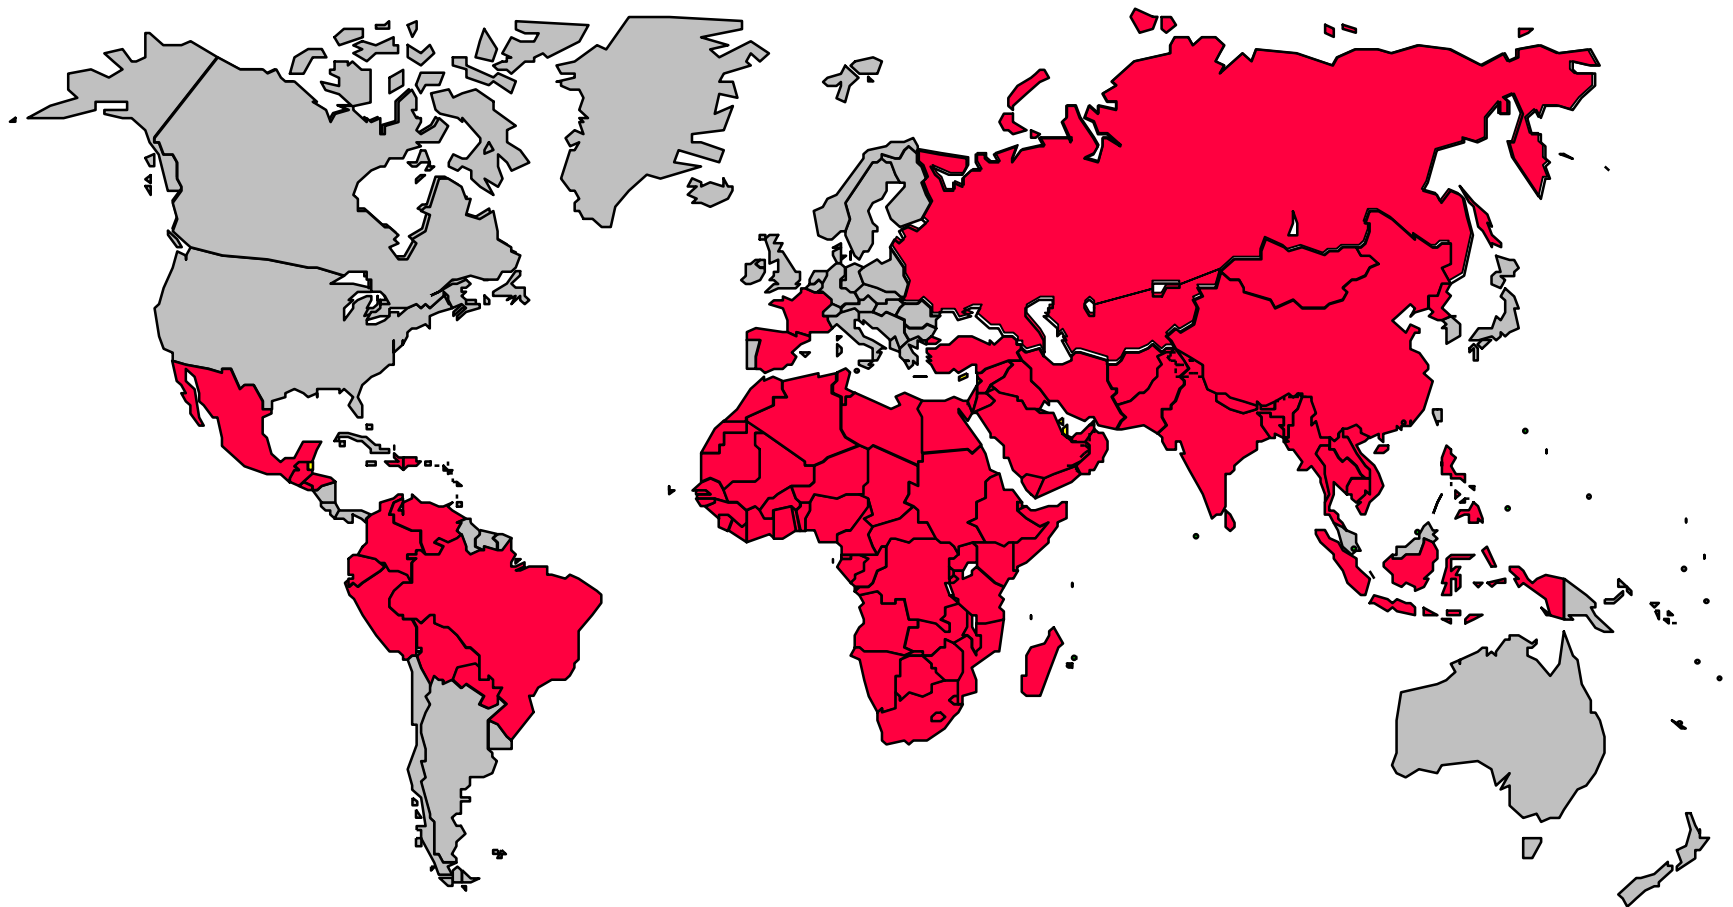

4

AFP Case Investigation

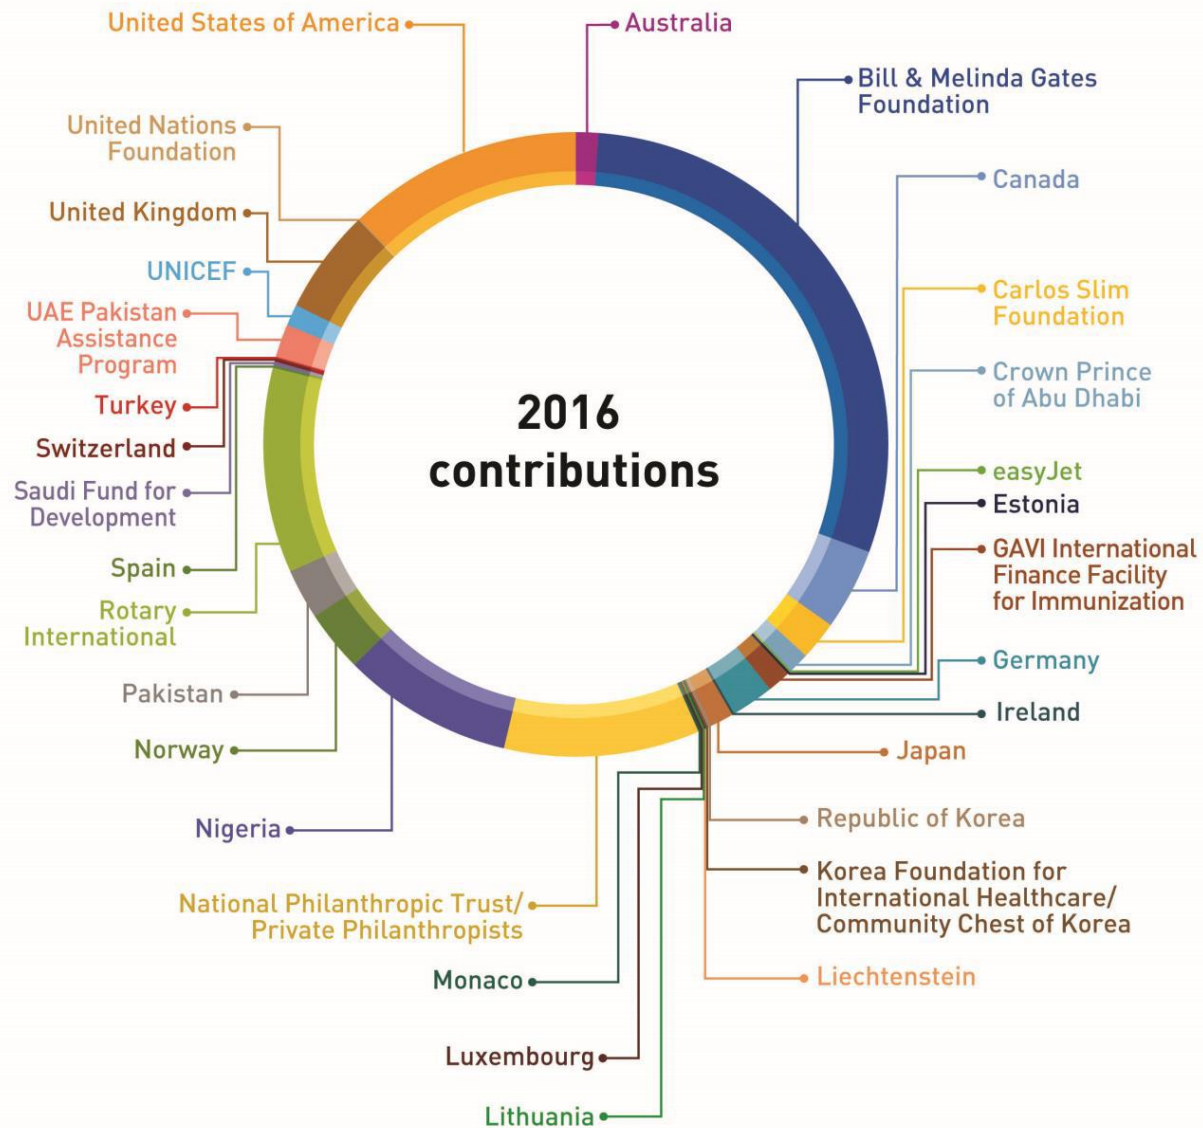

- "yes" AFP reports are automatically submitted to the appropriate disease surveillance officer (DSO)
- DSOs investigate the case using an ODK form on their mobile phones
- the information is logged on the dashboard
